WORK EXPERIENCE

Full Stack Developer

CGExcise(NIC), Raipur (Chhattisgarh Government)

11/2024 - Present

Achievements/Tasks

- Developed and maintained a web application for managing excise label distribution using React.js, React query, Redux, Context API, Tailwind CSS and Node.js.
- Implemented user and admin modules for payment processing, label demand, permit generation, and stock tracking.

Software Developer

CHiPS (Chhattisgarh Infotech Promotion Society), Raipur (Chhattisgarh Government)

01/2023 - 10/2024

Achievements/Tasks

- Collaborated with cross-functional teams to digitize government workflows and public service delivery.
- Built RESTful APIs and admin dashboards for various e-Governance modules using Node.js, Redux, MongoDB and React.js.

PROJECTS

CGExcise State Portal (MERN / Next.js)

- Developed a full-stack Excise application web application for managing excise label distribution using React.js, React query, Redux, Context API, Tailwind CSS and Node.js.

CG State Portal Development

- Developed modular React.js components for public service listings, application forms, and announcements.

PG Life – Paying Guest Accommodation Management System

- Developed a responsive web platform to manage paying guest (PG) accommodations with real-time room availability, bookings, and payment features.

Sudoku Generator and Solver – Java-Based Puzzle Application

- Designed and implemented a Sudoku puzzle game with both puzzle generation and multi-strategy solving capabilities.

EDUCATION

MCA

Pandit Ravishankar Shukla University
